

Aapno Aavas - Business Requirement Document

Project Overview

Develop a professional real estate platform for showcasing residential and commercial properties, generating qualified leads, and enabling customers to connect with advisors.

Business Objectives

Increase lead generation, improve customer engagement, establish online credibility, and simplify inquiry management.

Core Features

Home page, About Us, Property Listings, Project Details, Search & Filters, Contact Forms, WhatsApp Inquiry.

Admin Requirements

Manage projects, leads, banners, media gallery, and user inquiries through an admin dashboard.

Lead Management

Capture inquiries from forms and WhatsApp, store customer details, assign status, and export reports.

Content Management

Ability to add, edit, remove, and categorize projects and informational pages without redevelopment.

SEO & Marketing

SEO-friendly URLs, meta tags, sitemap, analytics integration, social sharing, and landing pages.

Security & Compliance

Secure contact forms, privacy policy, cookie consent, and terms & conditions integration.

Performance

Responsive across devices, optimized loading speed, scalable for future property additions.

Deliverables

Fully functional website, admin panel, documentation, testing, deployment support, and basic training.
